

# MAKE A MISTAKE? WE'RE HERE TO HELP!

CincyMLS strives to have the most accurate data possible and realizes that mistakes happen. If an error is made, contact CincyMLS to have the information corrected and avoid unnecessary LDC notifications.

## Sold Information

The sold information must be verified by both the listing agent and the selling agent after the listing is changed to Sold. Errors must be reported within 30 days of the closing so staff can make corrections.

## Incorrect List Price

Contact CincyMLS immediately if the list price has been entered incorrectly. Staff can correct the original price and often make it seem as if no error has occurred. Before a status change occurs (including going Active from Coming Soon), verify that the listing information is correct because price corrections can't be made once a listing has changed from its original status.

## Changes

Staff can correct most price change and status change errors, if reported immediately, including the removal of the indicators. The sooner we are notified, the easier it is to make corrections; if too much time has passed, it may not be possible.
