

REALTOR SAFETY

What precautions would you tell others to take if they were meeting strangers in a vacant house? There are many actions to help ensure safety.

NAR Realtor® Safety Program Resources can be found at <https://www.nar.realtor/safety>

1. Share

Meet new clients in a public place and share your schedule with colleagues, friends and family.

2. Assess

Assess your surroundings to spot and avoid danger. Never enter a home while distracted.

3. Stay Charged

Be sure your cell phone is fully charged. Always keep an extra charger or travel charger in your car.

4. Parking

When showing a property, park on the street so you aren't blocked in the driveway.

5. Avoid Small Areas

Instead of entering small spaces, speak to the client from the outside to avoid being trapped.

6. Awareness

During Open Houses, remain aware of visitors and their actions by limiting personal distractions.
